

CERTIFICATE

Legotskyi Sergii

Has during ten days from 2008-02-11 through to 2008-02-13 participated
ABB AB, Kabeldon's course

Terminating of Power Cables 52-170 kV

The course has comprised both theory and practical assembly.

The theoretical part has embodied the construction and properties of cables and cable accessories, methods of controlling electrical fields, cable preparation, critical steps during installation, stress due to environmental conditions, creepage currents etc. The practical part has included the installation of cable termination for 52-170kV.

- High Voltage Basic 52-170 kV
- Cable termination APECB 170 kV

Marianne Nilsson
Training Co-ordinator, ABB AB, Kabeldon

Lars Källberg
Course leader, ABB AB, Kabeldon
